

## Transition from Early Intervention Services to Part B Preschool Special Education Checklist

This checklist includes practices to support the transition of toddlers from early intervention services into preschool or preschool special education services. The main focus of these practices is activities implemented in collaboration with family members and preschool program practitioners that promote positive relationships and child and family preparation and adjustment to new settings and services. The checklist indicators can be used to develop a transition plan to ensure a child's and family's smooth transition from early intervention to preschool. The checklist rating scale can be used for a self-evaluation to determine whether the transition practices were used prior to, during, and after the transition.
