I learned more about practical strategies that I can use.	87%
As a result of this webinar, my knowledge/skills have increased.	92%
The training will have a positive impact on my professional work.	92%

HOW will you use the information you learned?

Participants overall mentioned they will:

- to help educate parents.
- apply learned information when working with families.
- to use the most up-to-date language when providing services and talking to families.
- to better understand and provide services.
- to share training information with peers and colleagues.

We are looking at changing our Autism-related guidance to providers at a state level and this webinar was very helpful in generating ideas on how to do that.

I write practice guidance for EI professionals statewide and will incorporate neurodiversity affirming language and mindsets into the guidance I write.
